In view of recent developments before is about time the people of that town were awakening to a realization of their needs. It is about time they were bringing about a political earthquake that will bury the corrupt Tammany ring so deep that it will never again be a power in the city.

The Chicago Inter Ocean suggests that Uncle Sam ordered the census to be taken not to boom cities and towns, bu to number the people. That is true, but some cities do not seem to see it that way, judging from the abuse they are heaping upon the authorities because the enu merator's reports do not tally with their wild boom figures.

WHILE John L. Sullivan was receiv ing his sentence to pay \$500 fine to the State of Mississippi the other day, his backers were arranging for another within sight of the National Capital, on the Virginia side of the Potomac river. Thus does the profession of which the Hon. Mr. Sullivan is the head persist in defying the laws of the land.

One of the greatest surprises experienced in labor circles for some time was the withdrawal of William Martin from the Secretaryship of the Amalgamated Association. The Pittsburgh Commer cial Gazette says the resignation will be no small loss to the Association and pays the following tribute to Mr. Martin: He was the Secretary of the first meeting which resulted in the first organization of iron-workers in the country, and was chosen Secre-tary of the Amalgament Association formed by the coalition of the various individual associa-tions which coalities.

Our neighbor is mistaken when says this newspaper has confessed that it originated a falsehood concerning Chairman Riley's plan of campaign There has never been a necessity for such a confession, for the reason that no falsehood has been uttered. Chairman Riley himself has not denied the truth of the statements sent to this paper from Washington regarding his interview with certain students of the Fair mont Normal School, nor do we anticipate that he will do so.

The name of the INTELLIGENCER'S authority for the statements made is ob tainable. . If Regent Riley did not take the occasion of an official visit to a State educational institution to perform po litical service in the line of the duties of Chairman of the State Democratic Executive Committee, he should enter a specific denial. When he does so the INTELLIGENCER will be permitted to give the name of the Republican angel entertained unawares by the Chairman. The Pension IIII.

One of the pledges made by the Republican party was that made to the soldiers, and it has, so far as was possible, been redeemed. The dependent pension bill which has become a law this week is a measure similar to the one vetoes by Mr. Cleveland, and which a Republican Congress stood pledged to pass.

The expenditures under the bill will be about \$40,000,000. This is the estimate made by Senator Davis, of Minnesots, the chairman of the committee, in spite of the fact that Democrats, in their effort to defeat the bill, extravagantly estimated that it would require \$78,000,-

Whatever the amount is, it will be spent all at home, among our own peo-ple, not a dollar being sent abroad, and

this kills the effect of much of the complaint uttered by the croakers. Speaking upon this point a western

contemporary says: The interest on government bonds is largely sent abroad, and the rest, for the most part, goes to swell the bank accounts of the rich who spend a great deal of their money abroad, or in the purchase of imported luxuries. But the pensioner stays right at home, and nearly everything he buys is of home production. No other expenditure made by the government is so emphatically a home affair, little else than pouring water into a tube which empties into the cistern from which the water was originally taken. The nations of Europe are taxed to death to support standing armies in idleness, but the pensioner is free to engage in the ordinary pursuits of life, according to ability and bent. \$10, good 10 days. A Macon (Ga.) man has a frying-size chicken with not a feather excepting a few on his wings. The chicken has been featherless ever since it was hatched and enjoys perfect health.

It is estimated that the regular insur-ance companies of the United States will disburse during 1890 the sum of \$83,000, 000 in death, endowment and dividend claims. It is an average of \$1,600 for every minute in the year.

During the Franco-German war the ladies in England were busy making paper cushions, which they sent to France to be used for the wounded in the hospitals. Hundreds of thousands of these cushions were sent and were of great service.
